Are the increased traffic movements associated with this proposal acceptable in safety terms for all users (cars/cyclists/pedestrians) to enter and leave the site without a detrimental impact on the safety of the A4010? 2. Is it safe given the speed of vehicles on the A4010 for relatively slow moving/accelerating buses to use the main entrance for entry AND exit? Our principle concern is with buses leaving the site. 3. The footpaths on the A4010 to and from the train station and bus stops are overgrown and in poor condition – these need to improved to a good standard BC or the applicant asked make appropriate contributions to these costs.	23/11/2021	Awaiting decision
